

Moonrise Power Lift

Moonrise Powerlift is part of our Paradise collection. This was born from listening to our customers, who were asking us for an armchair with a powerlift mechanism but with a different aesthetic to those we are used to finding on the market. This is why we have adapted our Moonrise model to this mechanism.

This armchair is focused on people whose mobility has been reduced or whose strength is failing, but not their style.

All our sofas and armchairs can be totally customised. You can choose among more than 1000 different materials available in our range. The best part is that you can combine different fabrics as you like, mixing different textures, colours and patterns, to make your sofa an exclusive and unique piece.

All measurements are approximate
