

15 years after creating one of Fama's most important icons, the Moon recliner, they thought it was about time to update it.

"Looking at the design of the Moon chair, no one could image that our bestselling model of all times is now 15 years old. Therefore, there was not much we could change to enhance a model that has not become old-fashioned at all. We have only made minor changes aimed at improving its incredible comfort: a new headrest and the footrest, joined to the seat, have achieved what seemed almost impossible: beating the comfort of Moon. Moonrise is born, a model that will live together with the classic Moon recliner."

Classic version of our Moonrise relax armchair, characterised by its comfort and its curved shape that envelops you, favouring comfort and rest
